INSTALLATION INSTRUCTIONS SS

PART NUMBER: ACU-RSX
FOR: 2002 + ACURA RSX
EFFECTIVE: 08.08.01

INSTALLATION PACKAGE INCLUDES:

- A) 4 – 1" Mounting Screws
- B) 4 – Lock Washers
- C) Adhesive Pads (for an unpainted Sportwing®)
- D) Instruction Sheet

PLEASE READ ALL INSTRUCTIONS BEFORE BEGINNING INSTALLATION

1. Close trunk. Along the drivers' side, measure down 4" from the tip of the trunk lid back towards the rear of the car and make a mark with a grease pencil. Repeat on passenger side. **See Diagram A below.**
2. Leaving paper liner on the bottom of the mounting feet, place the Sportwing® on the marks made in Step #1, **see Diagram A below**, so that as you face the rear of the car, the front tip of the Sportwing® rests on the marks. Center the Sportwing® exactly from left to right. Using a yellow grease pencil, outline both mounting feet. Remove Sportwing® from trunk.
3. Close the trunk and remove the paper liner from the bottom of the mounting feet. Place the Sportwing® back onto the outline marks made in Step #2 and press firmly into place.
4. Open the trunk lid and notice two (2) small circular indentations in the rain channel of the trunk lid under the area where the mounting feet sit, **see Diagram B below** (**NOTE: drill holes slightly inside of indentations as shown in Diagram B**). Using a 5/32" drill bit, drill through these indentations, through the deck lid and up into the bottom of the mounting feet (**NOTE: when drilling, we insist that you used a drill stopper to prevent from drilling through the top of the Sportwing®. DO NOT over extend drill bit more than 1" past drill stopper**). Insert mounting screw with lock washers and tighten. **DO NOT OVER TIGHTEN.** Repeat procedure on other side.
5. Clean up any metal shavings that might have fallen into the trunk and you are done. If you have any questions, problems or if you would like information about other quality Sportwing® products, please call the TOLL FREE number at the top of this sheet. Thank you for choosing Dawn Enterprises Inc.
