## INSTALLATION INSTRUCTIONS

PART NUMBER: NEO20T  
FOR: 1998 + Dodge Neon  
EFFECTIVE: 03.17.99

### INSTALLATION PACKAGE INCLUDES:

- A) 2 – Mounting Screws
- B) 2 – Lock Washers
- C) 2 – Black Hole Caps
- D) Template
- E) Adhesive Pads (*for unpainted Sportwing®*)
- F) Instruction Sheet

### PLEASE READ ALL INSTRUCTIONS BEFORE BEGINNING INSTALLATION

1. Starting from the definite crease along the rear edge of the trunk, place the Sportwing® so that the rear most part of the mounting feet are 1" forward of the trunk crease. Center the Sportwing® from left to right and outline all mounting feet with a grease pencil.
2. Remove the Sportwing® and place the template provided on the outline marks from Step #1. Using a 5/32" drill bit, drill down through the deck lid and secondary panel at the spot indicated on the template (**NOTE: make sure you only drill through two panels when drilling this step or you risk drilling through the rain channel**). Repeat procedure on other side.
3. Open the trunk and using a 5/8" hole saw, open up the mounting holes drilled in Step #2 to give you access for your socket later. Repeat procedure on other side.
4. Peel away the tape from the bottom of the mounting feet and place the Sportwing on the outline marks made in Step #1.
5. Using a 5/32" drill bit, drill up into the bottom of the mounting foot using the pilot hole you drilled from the template in Step #2 (**NOTE: when drilling, you must use a drill stopper to prevent from drilling up through the top of the Sportwing®**). Install mounting screw with washer and tighten firmly. **DO NOT OVER TIGHTEN**. Repeat procedure on other side. Cover the 5/8" holes you drilled in Step #4 with hole caps provided.
6. Clean up any metal shavings that may have fallen into the trunk. If you have any questions, problems or if you would like information about other quality Sportwing® products, please call the TOLL FREE number at the top of this sheet. Thank you for choosing Dawn Enterprises Inc.
