**INSTALLATION INSTRUCTIONS**

PART NUMBER: RS-SIL/SIE14

FOR: **2014+ Chevrolet Silverado //**

**GMC Sierra**

EFFECTIVE: 1/26/17

**INSTALLATION PACKAGE INCLUDES:**

- A) Polyurethane Sealant
- B) Alcohol Wipes

**EXTRA TOOLS NEEDED:** Masking Tape, Tape Measurer, Grease Pencil, & Soft Cloth

**PLEASE READ ALL INSTRUCTIONS BEFORE BEGINNING INSTALLATION**

1. Clean installation area with provided Alcohol Pads. Test fit Sportwing® and center from left to right. Place Masking Tape along the edges of the Sportwing® onto the cab to outline the Sportwing® for installation **(See Diagram A)**.
2. We recommend placing the Sportwing® on your dashboard with your window defrosters on the highest temperature setting at the highest fan setting for 20 minutes while completing the next steps. The warmer the Sportwing®, the easier it will be to achieve your desired installation preference.

**(DIAGRAM A)**

**(DIAGRAM B)**

3. Towards the outside edges of the back window, measure up 1/4" and mark with a grease pencil on each end and measure up 1/2" and mark with a grease pencil in the center for a LOWER look. For a slightly HIGHER look, measure up 3/4" and mark with a grease pencil on each end and measure up 1" and mark with a grease pencil in the center **(See Diagram A)**.
4. Using Masking Tape, line the tape up to the bottom of the 3 marks you just made with a grease pencil in the previous step.
5. Once the Sportwing® is warm, remove the paper liner from the tape. Proceed to line the inside of the tape with a 1/4" bead of Polyurethane Sealant **(See Diagram B)**.
5. Make sure the Sportwing® is within your outline marks, and gently push Sportwing® thoroughly into place with a soft cloth. Let the Polyurethane Sealant Dry. We recommend not driving the vehicle for at least 4 hours.
6. If you have any questions, or would like more information about other quality Sportwing® products, please call the TOLL-FREE number at the top of this sheet. Thank you for choosing Dawn Enterprises Inc.
